

Belgian company that does energy storage for communication base stations

Overview

Bnewable is a Belgian energy company, specialised in energy storage and energy management. Telecommunications companies, which must maintain the infrastructure (base stations) in addition to data storage and backup, depend on uninterruptible power supply (UPS) systems. They ensure that the landline, internet and mobile communications function nationwide. Their extensive inventory and expertise in renewable energy storage make them a reliable source for diverse. Belgian energy technology company developing advanced BESS and intelligent EMS is seeking industry and research partners to advance next-generation battery management and control systems. Their technology enhances energy efficiency and supports local energy communities, effectively optimizing energy use and cost while. Kallo, 14 May 2025 – NHOA Energy, the global provider of utility-scale energy storage systems, today celebrated with ENGIE the groundbreaking of a 400 MWh battery energy storage system (BESS) in Kallo, Beveren, Belgium. The project will be delivered by NHOA Energy to ENGIE under a supply contract.
