

Lithium battery product supporting enterprise list

Overview

The database features companies within the following li-ion battery supply chain segments as well as support facilities, such as equipment manufacturing and research. To include your company's information in the database or update information in the database, please complete a questionnaire. NREL has developed the database with funding from NAATBatt International—a trade association of more than 220 companies that promotes the development and commercialization of electrochemical energy storage and the revitalization of advanced battery manufacturing in North America. For more information about NREL's development of the database for NAA. If you have any questions or require assistance, contact LIB.SupplyChain@nrel.gov. Note: You no longer need to contact us to add or update company information to the database—just complete a questionnaire.
