

Single-phase smart photovoltaic energy storage outdoor cabinet for base stations

Overview

An Outdoor Photovoltaic Energy Cabinet is a fully integrated, weatherproof power solution combining solar generation, lithium battery storage, inverter, and EMS in a single cabinet. Sustainable, high-efficiency energy storage solutions. It is built specifically for outdoor installation and integrates advanced LiFePO₄ battery. EK-SG-D01 Outdoor Communication Single Cabinet is suitable for cabinets installed in outdoor environments such as roadsides, parks, rooftops, mountainous areas, and flat land. The cabinet can be installed with base station equipment, power equipment, batteries, temperature control equipment. With the power system under strain, what key roles are energy storage technologies playing?

Introduce safe and efficient clean energy to achieve energy-saving, low-carbon operations and stable, secure performance for communication base stations. The cabinet provides an enclosure that is weather-tight for servers, batteries, inverters and telecommunication equipment with dual AC and DC power inputs/outputs.
