

The role of Swedish wind solar container energy storage system

Overview

Vattenfall operates large battery storage systems in combination with wind and solar parks at several locations in Europe. Almere, the Netherlands, 25 January 2024 – Alfen, a specialist in innovative energy solutions across Europe, has signed an agreement with Vasa Vind that marks its first battery energy storage system co-located at a Swedish wind farm. Alfen will design, engineer, install and commission a 20MW/20MWh. The electricity network company Ellevio is diversifying its business to help industry and companies become fossil-free through electrification. The first investment is Sweden's largest Battery Energy Storage Solution (BESS) that enables more renewable energy in the electricity system and a better. TLS Energy played a dual role in this project, both as the manufacturer of the BESS units and as the Engineering, Procurement, and Construction (EPC) contractor, showcasing its expertise in delivering comprehensive energy solutions. This system is specifically designed for Fast Frequency Response.
